

Herewith are the results from most official slope contests known to have been held in Victoria since 1971.

They include mainly State slope aerobatics championships, local aerobatics contests, some slope pylon racing and a few other interesting things that have happened along the way.

There are also a handful of events that were run in other states.

This information was compiled and edited by Ian Cole with historical information taken from the VARMS History log compiled by Des Bayliss.
